Manda Hararo 2026 — fit on the 2005 dike plane

reprocessed 30-m (GSLC) inputs · 18 July reference · SE-extended Wright et al. (2006) plane + trace-supported east fault

displacement colour cycle
(one cycle = 10 cm toward the satellite)

observed − model (cm; clipped)

Profiles: + toward satellite
median across a 1-km swath
200-m display grid · gray = no data
RMS at ≈1.3-km inversion blocks
